

Sanofi Co-Op Placement

Experience life inside Sanofi
Waterford

The multiple national award-winning Sanofi Waterford biopharmaceutical and medical device campus is located in Waterford on Ireland's southeast coast.

Established in 2001 and now with more than 650 employees, the site has seen more than €600m invested in state-of-the-art infrastructure and technology. Diversification continues to bring new products to Waterford and the expanded site portfolio is creating new opportunities.

About Sanofi

Sanofi, a global healthcare leader, discovers, develops and distributes therapeutic solutions focused on patients' needs. Sanofi is organised into five global business units: Diabetes and Cardiovascular, General Medicines and Emerging Markets, Sanofi Genzyme, Sanofi Pasteur and Merial. Sanofi is listed in Paris (EURONEXT: SAN) and in New York (NYSE: SNY).

About our Co-op Placement

Experience life inside Sanofi where you will quickly be part of a team, have the opportunity to work on real projects that challenge you and help you develop the skills for a great career. You will experience a unique culture that is centred on our people, our patients and our community.

A Co-op placement gives you a chance to experience a real work environment before you graduate. Co-op helps to develop skills that you will need throughout your career - for example, communication skills, teamwork, problem-solving, ICT skills and many more. Your co-op placement in Sanofi Waterford will also help to inform your future career path.

By completing your placement here, you will gain valuable work experience. You'll be able to build your skills and confidence by working alongside experienced specialists in your chosen business area. The work and training you will complete will be no different from any other team member, contributing to a range of projects as part of a highly skilled team.

Now Recruiting For Co-Op Placements in the Following Areas:

- Have excellent leadership and communication skills.

The co-op placement runs for 6 months.

To apply, please send CV (email only) to coop.placement@genzyme.com

Closing date: 16/12/2016

"My time in Sanofi was a brilliant experience. I worked as a student engineer with a great team in the projects department. I can't recommend Sanofi enough as an enjoyable and great place to work. I got involved in some fantastic projects from the beginning and my team leader wasn't afraid to give me some responsibility which really made me feel a part of the team. I learned a huge amount during my time here and it was a great insight into the pharmaceutical industry. I was delighted to say I was awarded Sanofi Co-Op Student of the Year and would look forward to going back there in the future."

- Bryan Laffan, Cork Institute of Technology.

"I was a HR co-op student for six months and I loved every minute of it. At first, I was quite nervous as I found the thought of working in the organisation daunting. This feeling soon passed as I was welcomed into the team. I got to work within a HR team and contribute to the business. My role was to also support the T&D (training and development) team. This allowed me to view the business from different areas. As time passed, I became more involved as I had daily, weekly and monthly tasks which I knew were my responsibility. My co-workers trusted my ability and this helped my confidence to grow throughout my placement. Overall I feel my time in Sanofi Waterford will stand to me in my future."

- Alice Butler, Waterford Institute of Technology.
